Re: Vitaly Scherbo School of Gymnastic, Addition

To Whom It May Concern:

This facility has been in operation for approximately ten years, and has developed a competitive gymnastics team. With the open gym time, where the public can come in to use the facilities, it makes it difficult for the team to be able to spend the required time training for competitions. This proposed addition will facilitate the needs for the additional training for the team. It is not intended to increase the numbers of students, but to provide a more functional facility.

Sincerely,

Lee A. Bigelow,  
Architect
